Document Body

Hi Melinda,

During our briefing with Loren, you mentioned that Site 12 was a key area at Treasure Island. The attached Site 12 Comments and Report is very brief. There are only three unresolved comments. Could you please look it over and let me know if you have any additional issues with Site 12? Also, I know you mentioned that Bob Terry helped out on the radioactive disputes on Site 12. However, the unresolved issues do not appear to be related to rad. Is there a toxicologist in tech support that has helped out on the Site and is familiar with the issues? This could be useful in the future as well.

Thanks for you help and let me know if you need any additional information to respond.

Subject: Treasure Island - Site 12 RI Comments and Report

Hi All - I have attached a list of what the Navy perceives as the most significant BCT issues on the Site 12 RI Report based on your second round of comments received in January and February 2012. I would appreciate it if each of you could confirm that these are the most relevant issues keeping the BCT from supporting issuance of the Final RI report. This is also an opportunity for you to add any additional "must have" items you deem to be critical for issuing a quality document. I would appreciate confirmation on this list of issues and any additional critical issues by 3/9 (this Friday). An email to me will be fine. Once we have your input, responses to these specific issues, new critical issues, and the second round of BCT comments will be provided to the BCT by 3/13. I would then like to hold a technical call discussing all these issues on Monday, March 19. The goal of the technical call would be to resolve the issues through a meeting format instead of issuing another set of RTCs or a revised Draft document. Please let me know if that day will work for you and I will send out a meeting request with the call in information.

The Navy appreciates your continued support on the Site 12 RI. Please feel free to call me if you have any questions.

Regards,

Tony K.
